

HMS OARDACIOUS

Outreach pack

HMS
OARDACIOUS

Welcome

Sponsorship is not just advertising; it is an alignment of values, a belief in a common goal and its is a way to engage with the wider Royal Navy Submarine service network in an environment they are passionate about.

We have successfully delivered over 50 events to audiences of all backgrounds and ages; giving a unique perspective of our operational space, overcoming isolation, Mental Health, Resilience, Team building, Leadership and Overcoming adversity.

As the Coronavirus pandemic has challenged all organisations, we have delivered numerous virtual events and podcasts across defence, the education sector, industry and corporate, and both staff an senior leader level.

#HMSOARDACIOUS

Science, Technology, Engineering & Mathematics

The Atlantic challenge provides a fantastic platform to inspire and capture the curiosity of a broad range of audiences throughout the education spectrum; we continue to proudly work with schools, Sea Cadets, Scouts, universities and apprentice schemes.

Webinar: Rowing The Atlantic - An Oardacious Expedition

Our Vision

“Achieve, Aim, Aspire, Accomplish, Adventure, Inspire, Flourish, Thrive, Lead, Learn, Succeed, Support, Teamwork, Confidence, Challenge, Develop, Grow, Potential”

Our Themes:

- Success Mapping Sea Readiness
- Marine Engineering
- Human Performance
- Mental Health & Wellbeing

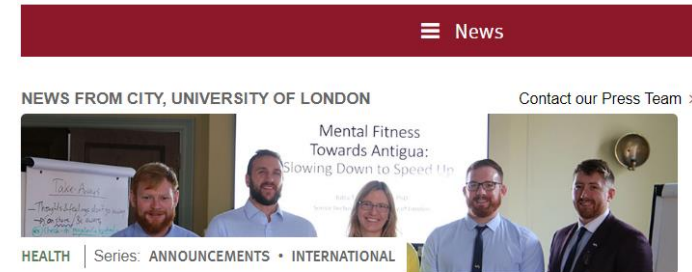

Mental Health & Wellbeing

We are here to help champion Mental Health, Wellbeing and Human Performance in your organisation:

4

As Royal Navy Submariners and Ocean Rowers we are familiar with the concepts of isolation and the importance of Mental Resilience both as individuals and teams to overcome adversity in everchanging landscapes.

Mindful submariners embark on Atlantic rowing challenge

The HMS Oardacious team develop essential mindfulness techniques with support from City's Centre for Excellence in Mindfulness Research (CEMR).

First published Monday, 23rd December, 2019 • by [Shamim Quadir](#) (Senior Communications Officer)

This month, four British submariners began their 3,000-mile row across the Atlantic, as they powered across the start line in La Gomera, Canary Islands, Spain.

#HMSOARDACIOUS
